

1. RICHEVE BEBEDOR:

- Alubijid, Misamis Oriental, Philippines
- +63 928 934 0951
- richeve.bebedor@gmail.com
- <https://richeve-bebedor.github.io>
- <https://richevevsbebedor.substack.com>

2. Summary:

- Language-agnostic atomic systems developer focused on building working systems, reliable services, and productivity tools.

3. Current Skillset:

- Development Languages:
 - Javascript / Typescript
 - Bash / Shell / Powershell Scripting
 - Go / Python / Zig / Nim
 - Hyperscript / Web Components
- Testing Languages:
 - Hurl
 - Web Test Runner
- Technologies:
 - Node / Fiber / BuntDB / Storybook / HTMX / Lit

4. Relevant Experience:

- Web Automation Developer:
 - Freelance
 - From April, 2025 up to April, 2026
 - Go / Fiber / BuntDB / Python / Zig / Nim / Node
 - Playwright / HTMX / Hyperscript / Lit
 - Improved form input workflows by employing distributed automation capabilities and prioritizing performance.

- Senior Backend Developer:
 - Staizen
 - From September, 2024 to April, 2025
 - Node / TypeScript / NestJS / PostgreSQL / Jest
 - Implemented and maintained NestJS microservices, resolving production issues and delivering new backend features for enterprise workflow processing.
 - Improved API reliability and test coverage using Jest.
- Automation Tool Developer:
 - Freelance
 - From November, 2023 to August, 2024
 - jQuery / Javascript / HTML
 - Developed capabilities to speed up form input workflows by integrating with browser extensions for automations
- Full Stack Developer:
 - Narrasoft
 - From March, 2022 to July, 2023
 - Node / TypeScript / Express / Angular / PostgreSQL
 - Maintained and enhanced backend services supporting financial and accounting workflows.
 - Worked across API, database, and frontend integration layers.
- System Architect:
 - BIA JIROS Travel and Tours
 - From August, 2015 to October, 2023
 - Node / Express / MongoDB / Angular / React / AWS EC2
 - Served as system architect and lead web developer across the full platform lifecycle, designing backend services, databases, and infrastructure.
 - Managed production AWS EC2 environments and MongoDB systems.

5. Current Projects:

- Prototyping System:
 - <https://github.com/volkova-system/volkova>
 - Concise, focused and reliable system for manifesting ideas to tangible applications.
 - Javascript / Typescript / Bash / Shell / Powershell
 - Go / Python / Zig / Nim
 - Hyperscript / Web Components
 - Hurl / Web Test Runner
 - Node / Fiber / BuntDB / Storybook / HTMX / Lit
- Richeve Bebedor Portfolio:
 - <https://github.com/richeve-bebedor/richeve-bebedor.github.io>
 - HTMX / Hyperscript / CSS / HTML

6. Education:

- Bachelor of Science in Computer Science:
 - AMA University
 - From 2007 to 2011
 - Thesis on "Simulation of the Cognitive Process of the Brain using Object Oriented Style Approach to Neural Networking Concepts for Image Processed Handwriting Analysis (JavaSE)"
 - AMA IT Society Organization Manager
 - Web & IT Summit Event Manager
